“ A memory that stands out by far for me of my uncle Gerald started when I was very little. Every time we would see each other (which wasn't very often because I lived in New York) we would have this thing of sneaking up on each other and licking the others face.(Gross I know right?) But that was our thing until I was old enough to start wearing make up I love you Uncle Gerald fly high your niece Karen (Garland)Ashline

“ My most cherished memory of my Uncle Gerald was when i was a child. He was up visiting NY during haying season and he would ride on top of the hay on the hay wagon with me, my sister,brother and some of his other nieces and nephews. while riding to the barn we would beg him to teach us to yodel. I loved to listen to him yodel. I will dearly miss him but he will always be in my heart.
Love,
Dottie
